HELPFUL HINTS:

This game is the 17th game mentioned in my online game series, [Susan's Sunday Spotlight](#). To see more about this game and to see different games, head over and subscribe to my channel:

www.youtube.com/c/susanjonesteaching

- I like to use anywhere between 15-20 cards at a time. You can always differentiate and use less cards for students who need it.
- When playing this game in the classroom, I like to play “best of 3” so the first student to find the other’s treasure 3 times wins!
- The first sheet are the treasure chests to hide under the sight words and the other words included are clickable below!
