The Snowy **SWITCH UP!**

HOW TO PLAY:

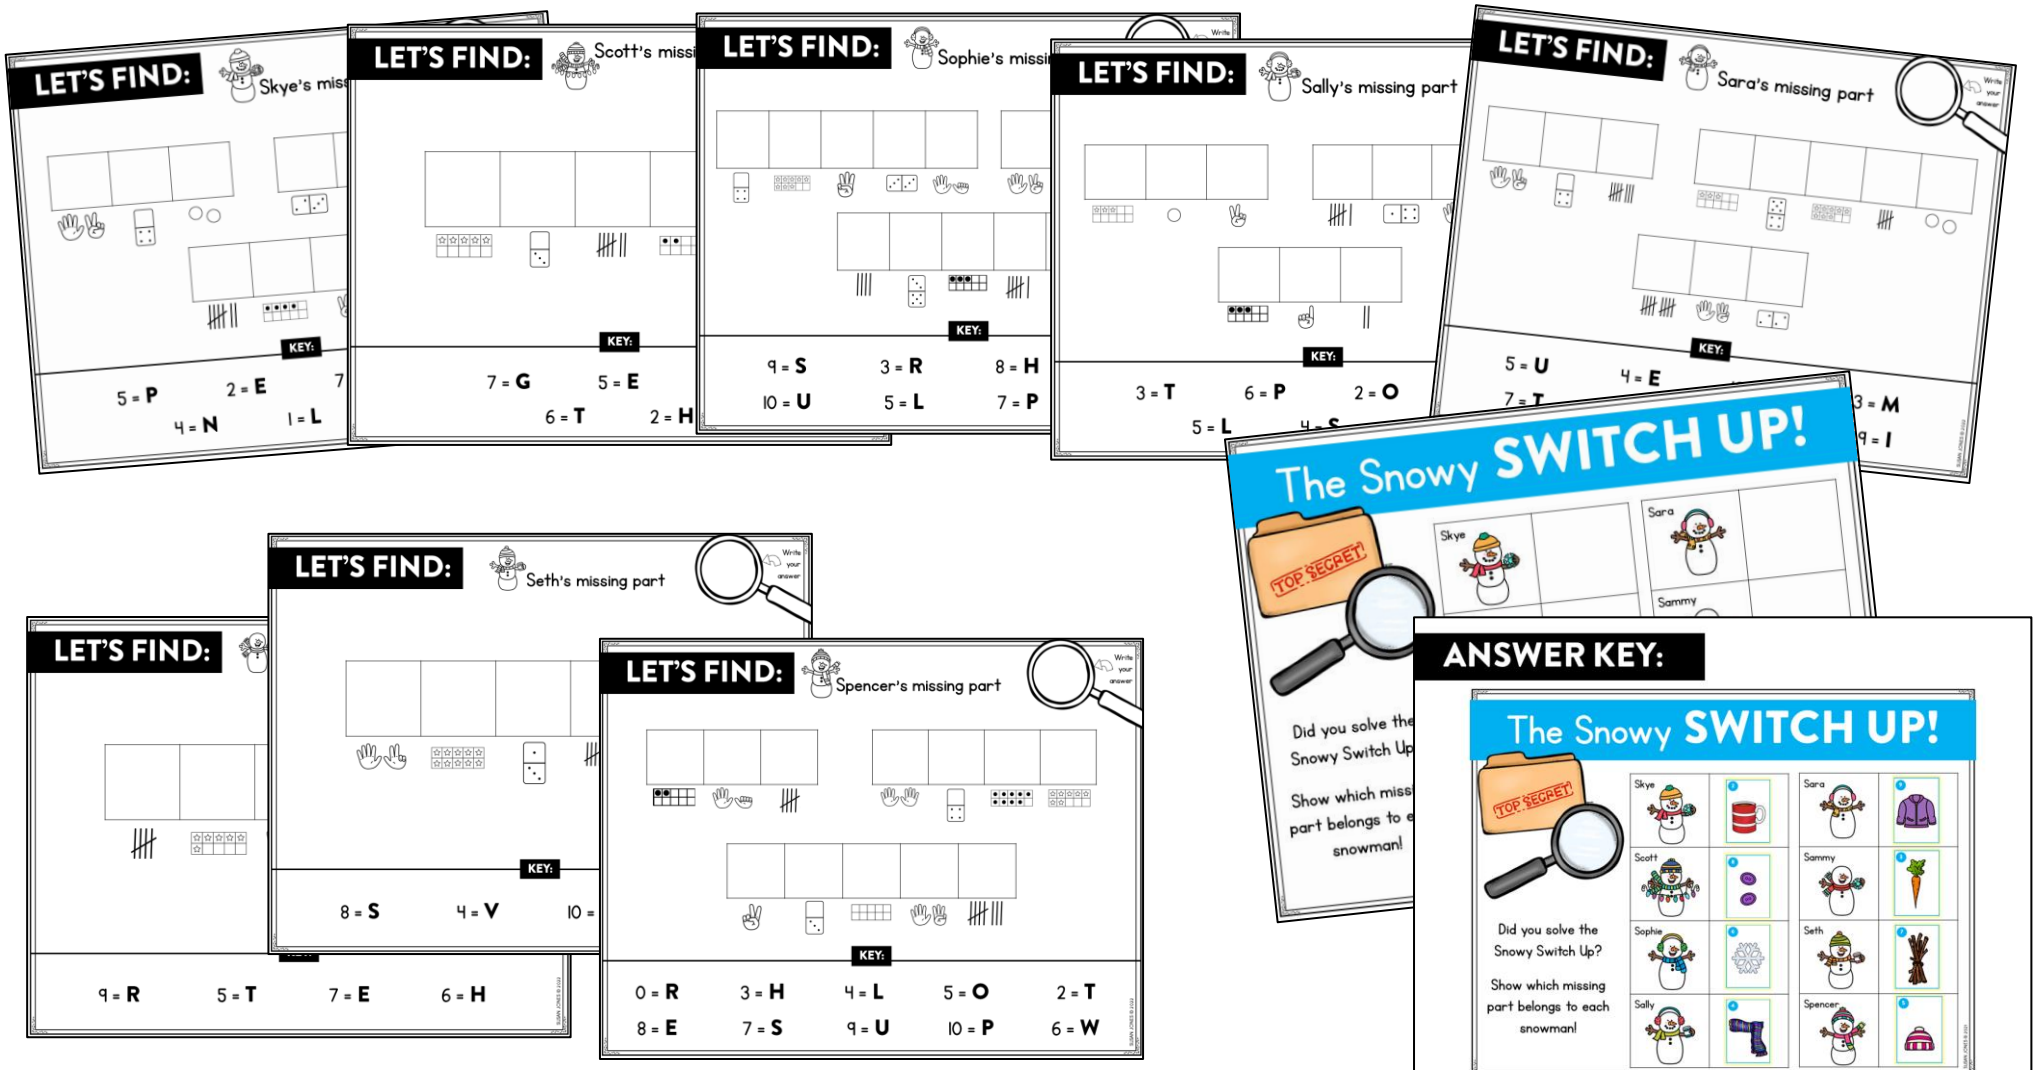
You will become a detective as you try to solve "The Snowy Switch Up!"

In this mystery, the snowmen went out during a windy snowstorm and lost some of their parts! Thankfully, there are clues hidden around the snow! Can you help search around for clues and help each snowman find their missing parts?

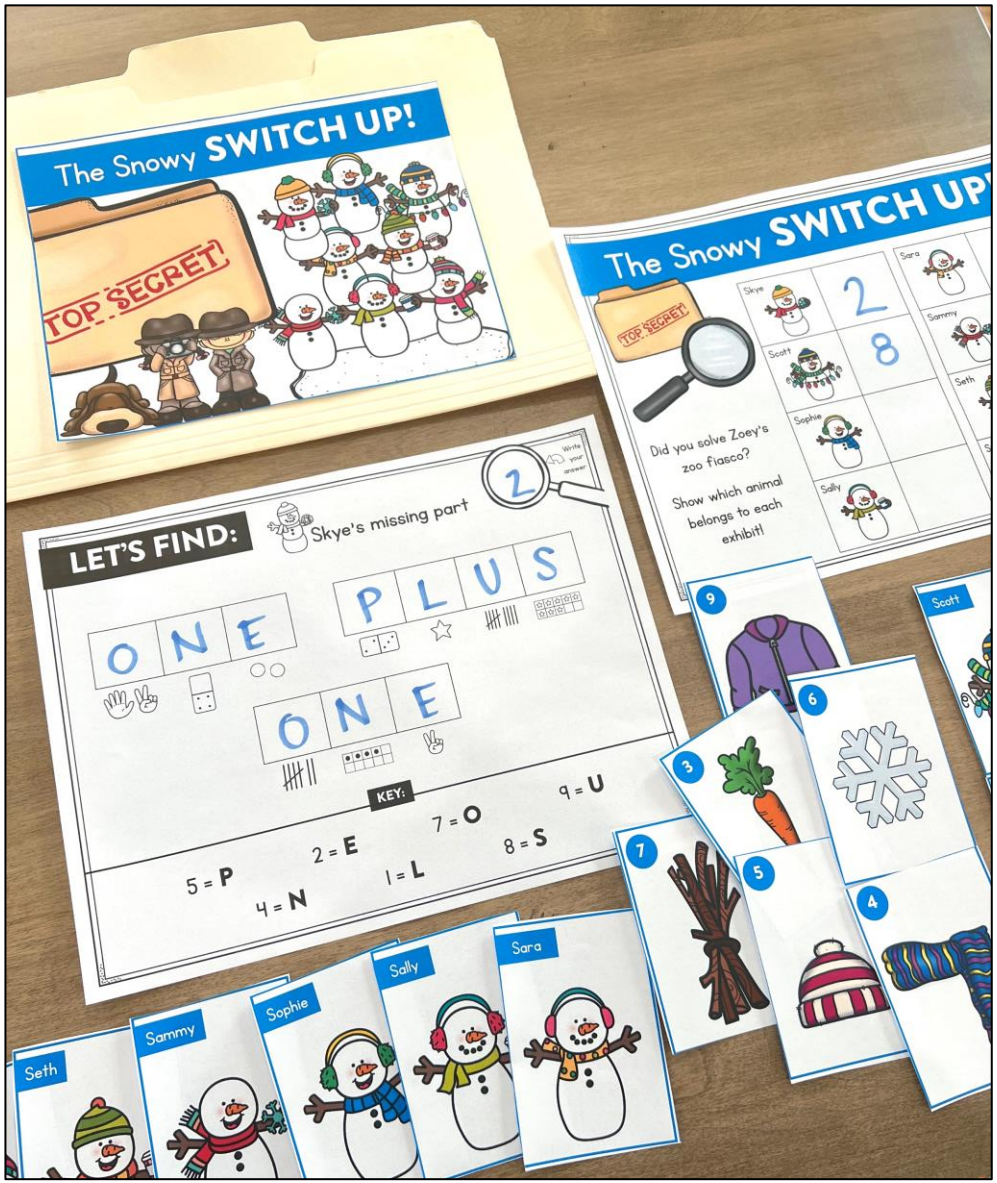
Good luck!

FUN & ENGAGING!

This game is sure to keep students entertained and engaged as they work independently or cooperatively to solve the case! There are 8 different clues where students must identify numbers using number sense to figure out the clue, then determine which missing part belongs to each snowman!



TIPS:



You can store the mystery in a case envelope with all its pieces!

Students can work together to solve this mystery by each solving different boards then coming together to solve it all at the end! They can also do this independently by working on different pages spread out over a week or so!

ALSO AVAILABLE:

This game is pre-loaded into Seesaw and Google Classroom for students to play!

Video instructions are included as well.
