

HANDWRITING PAGES:

When using these handwriting pages, there are a few steps I like to have students take. First, we identify the letter name AND sound by saying the letter name and then using the picture to identify the sound.

Next, I have students trace the large letters at the top and color in the focus image.

Then, students will trace the letters on the lines and write their own in between each traceable letter.

Last, I have students highlight their BEST letter they made on their own. They should be able to explain why they think it is the best.
