IN THIS UNIT:

These morning work sheets always have 2-3 sections with a predictable format for students to get used to! There will always be a phonological awareness/phonics review at the top and math review at the bottom.

The skills continue to build upon one another throughout the year and develop at an appropriate pace for kindergarten students.

<u>The June layout has 2 different sheets, 12 of each page. Page 1</u>:

Each day students will color in the day of the week

Here students will look at the different coins and identify the name and/or value of the coin shown.
