

WHAT'S THE WORD?:

In this unit, students will need to use their letter-sound knowledge to correctly identify the way to spell words. Beginning with easier skills (CVC words, digraphs, etc.) students will look at the image, say the sounds aloud and try to identify the correct way to spell the word. As skills progress, they will learn to identify which vowel team or diphthong to use when spelling words.

Lookalike words require students to really attend to each sound in the word and use their phonics knowledge to identify the correct spelling!

*In this unit there are 31 different pages for the following skills:
