

READ & COLOR:

This independent activity has students reading decodable sentences then finding the matching image.

With each skill, there are 4 sentences for students to decode. Students will then show their understanding by cutting and pasting the correct image into the box and coloring it to match.

There are currently 38 different practice sheets for different skills.

Please see the clickable table of contents on the next page for all skills!

SKILLS INCLUDED:

Below are the skills included for students to practice!
