

IN THIS UNIT:

These phonics slides are meant to align with Level K, Unit 2 of a FUN phonics program! These slides help guide your teaching and make your lessons more engaging.

This unit reviews all letter sounds and introduces letter formation of capital letters. There are 220+ slides in this unit designed to teach letter names and sounds, and letter formation for all 26 letters and their most common sounds.

Here are some example slides:

	• Each introductory slide includes the sound, the letter, and the keyword. • Each introductory slide includes handwriting practice and mouth images for proper sound formation - this unit focuses on capital letters.
	• There is a heavy focus on blending phonemes in this unit to get students used to blending 3 sounds together to make a word. • We do this with and without letters!

Please note: While these slides are meant to accompany a popular phonics program, but are no way affiliated, authorized, or sponsored by any curriculum and my own additions and unique spin have been added to these activities.
