

SIMPLE SENTENCES: PHONICS & WRITING CENTER

In this writing center, students will read two decodable words and generate a simple sentence using each. This is a great independent center because you can choose the skill your students are working on, and they can practice their sentence writing!

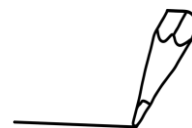

When using this center, I first am only looking for a simple sentence where students check their work for CUPS at the end. As students progress, you can ask them to write more detailed sentences.

Please note: these are meant to be used alongside the phonics skills you are teaching at the time (or to review previous skills). Please look in the top right corner of each sheet to see the skill focus.

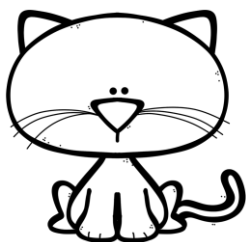

Name _____

SIMPLE SENTENCES

Read the two words in each box and create your own sentence.

Write a complete sentence on the lines and edit at the bottom.

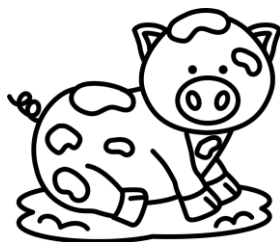

cat

sat

Jen

sad

pig

mud

☐

Capitalization

☐

Understanding

☐

Punctuation
