

PHONICS WORKSHEETS

These simple worksheets give students extra opportunities to practice decoding and encoding words with different phonics skills. Within each skill, there are four different types of practice sheets: **read and match**, **say**, **color**, **spell**, **read and draw**, and **real or nonsense?** The activities are simple and self-explanatory and allow students to follow a similar routine with each skill throughout the year. To access each skill, just click below:
